

Refrigeration Systems

Seal Tech Refrigeration is highly experienced in all facets of refrigeration system design, repair, and replacement. However, we primarily specialize in refrigeration hardware and seals. This allows us to be an industry leader in refrigeration hardware and seals, while working directly with reputable refrigeration system companies. Our team is trusted by leading refrigeration companies throughout the United States to handle all of their customers' hardware and seal repair needs.

Since we have established relationships with these other companies, we can recommend a reliable and reputable service provider for any of your refrigeration "system" needs.
